Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Blue Ridge Regional Jail Authority, Campbell County Adult Detention Facility contracted with Gregory Winston, a U.S. Department of Justice PREA Auditor, to conduct a PREA Audit of the Halifax County Adult Detention Facility.

Audit notices were posted in all inmate living areas, as well as public areas, including the lobby and visitation areas announcing the upcoming audit and containing the Auditor's contact information. Audit notices were present and observed at the time of the on-site audit. The facility was requested and agreed to keep all notices posted for four weeks following the on-site audit. As of the date of this report, this Auditor has received no communications at the PREA Audit Post Office Box.

Approximately four weeks prior to the on-site review of the facility, the Auditor received the Pre-Audit Questionnaire (PAQ) and a flash drive containing supporting documentation and policies. In the weeks leading up to the on-site evaluation, the Auditor performed a review of the agency policies, operational procedures, forms, training materials and other related supporting documentation submitted by the agency to demonstrate compliance with the standards. During and after this review, the Auditor had follow-up conversations with the agency and made few requests for additional documentation. All requests for additional documentation were provided and reviewed by the Auditor.

The Prison Rape Elimination Act (PREA) on-site audit of the BRRJA/HCADC in Halifax, Virginia was conducted on August 7th, 2018 by Gregory Winston, a U.S. Department of Justice PREA Auditor for Adult Facilities from Salem, Virginia. In addition, I met with central office personnel on Thursday, August 9th. At that time, I interviewed the PREA Coordinator, Departmental Investigator, Agency Administrator, Human Resources Manager, and the Mental Health Coordinator for the HCADC.

An entrance conference was conducted with facility administration on the morning of August 7th, 2018. Present were Auditor Greg Winston, Captain Tammie Hodges, Site Administrator, Lieutenant Debra Barksdale, Assistant Site Administrator and PREA Compliance Manager and Sergeant Debbie Dews,

Agency Wide PREA Coordinator. After a brief overview and opening remarks by the Auditor and Administrators, and the discussion which focused on the schedule for the audit, and a review of the process, the Auditor asked if there were any questions regarding the on-site portion before proceeding.

Immediately following the entrance conference, the Auditor toured the facility escorted by Lieutenant Debra Barksdale, Assistant Site Administrator and PREA Manager and Sergeant Debbie Dews, PREA Coordinator. The Auditor toured all areas of the detention facility, including all the offender housing areas, kitchen, laundry, medical offices, intake, library, recreation areas, and classroom. After the tour, the Auditor conducted specialized staff interviews, staff interviews and completed the random inmate interviews. Final document and file review were also conducted prior to the exit conference. The exit conference was conducted at the end of the day.

Throughout the facility tour, the Auditor spoke informally with both offenders and staff. Some of the informal questions asked of the offenders included their perception of the safety of the facility, information they had received during booking and classification, if they knew the various reporting methods and whether or not they had seen the PREA orientation video. Some of the informal questions asked of staff included their perception of the safety of the facility, their awareness of the first responder duties and their awareness of the various reporting methods. The Auditor observed and made note of the video monitoring system and camera placement throughout the facility, including reviewing the monitors in the control room. During the review of the physical plant, the Auditor observed the facility layout, staff supervision of offenders, interaction between staff and offenders, shower and toilet areas, placement of PREA posters, restrictive housing cells where available, search procedures and privacy at the place of strip searches, and availability and access of medical and mental health services. The Auditor noted that offender housing areas have shower areas that allow offenders to shower separately from one another and outside the view of staff members of the opposite sex.

Formal personal interviews were conducted with facility staff, and offenders. The Auditor was provided private space to conduct the confidential interviews. All staff and offenders were made available in a timely manner. Two male offenders refused to be interviewed when requested by the Auditor. All staff agreed to be interviewed by the Auditor. Due to the small size of the agency, all available staff and supervisors were interviewed. Specialty staff interviewed included two nurses and mental health, transportation/intake, a utility officer, kitchen supervisor, records clerk, investigator, intermediate level supervisors, a classification officer, the PREA Compliance Manager and the Site Administrator.

The Auditor reviewed training rosters and interviewed staff to determine their recollection of the annual PREA training. The administrative staff explained the process for relaying the mandated PREA information to new hires, as well as the procedure for annual refresher training that occurred at the same time as the annual firearms qualifications.

There were 147 offenders housed in the facility during the on-site review. The HCADC holds both male and female prisoners for housing. The Auditor was provided an offender roster and randomly selected offenders from each housing area to be interviewed. A total of 15 male offenders were interviewed and 5 female offenders. The auditor conducted a total of 5 targeted interviews, 2 Female and 3 Male. The facility does not hold Youthful Offenders, even if they are adjudicated as adults. Offender interviews were conducted using the established DOJ interview protocols. Offenders were also asked about their

perceptions of the sexual safety of the facility and whether they felt the staff would take reported allegations seriously. Generally, offenders felt that the facility staff took their sexual safety seriously and made PREA compliance a priority.

The Auditor verified the availability of SANE/SAFE services through their MOU with the YWCA.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The HCADC is located at 1010 Blue Ridge Lane, Halifax, Virginia 24588. It is one of 5 jails within the Blue Ridge Regional Jail Authority which was established in 1998.

The HCADC is operated under the direction of the Site Administrator, Captain Tammie Hodges and employs 46 staff members. It is located in the Town of Halifax and houses prisoners from Halifax County. It houses male and female inmates of all Security/Classification levels, pre-trial as well as convicted inmates sentenced to confinement in the Virginia Department of Corrections. The jail does not hold youthful offenders.

The facility has a rated capacity of 147 inmates. There is a total of nine (9) inmate housing areas. There were 147 inmates present on the dates of the audit. One unit is an open dorm and is located on the main (first) floor with 37 beds. Six units are located on the second floor, one being a direct supervision unit with 24 cells and 48 beds, one unit has 8 cells and 8 beds, four units have 8 cells with 16 beds per unit. Two units are located on the ground floor and both are open dorms with 30 beds per unit.

In addition to the inmate housing areas, there is a central control room, laundry facility, library, intake area, recreation areas, food service, as well as a medical service office and classification office.

The prisoners are observed on a twice hourly basis by the staff and provided basic necessities, as well as access to the facility's services as appropriate.

There were private areas available to conduct searches, medical examinations, mental health screenings, and PREA risk assessments.

There were private areas available to conduct classification screenings.

Overall, the Center was sanitary and orderly. The interactions between the staff and prisoners were respectful. The administration and staff members were friendly, helpful and professional.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Note: No standard should be found to be "Not Applicable" or "NA". A compliance determination must be made for each standard.

The Auditor was given unimpeded access to all areas of the facility during the review. During the previous 12 months, the Halifax County Adult Detention Center did not report any allegations of sexual assault. The Auditor conducted the exit conference on the evening of the August 7th, 2018. Present were Auditor Greg Winston, Captain Tammie Hodges, Site Administrator, Lieutenant Debra Barksdale, Assistant Site Administrator and PREA Compliance Manager, and Sergeant Debbie Dews, PREA Coordinator. The facility administration was open in the discussion of the PREA program at the facility and receptive to the feedback received from the Auditor.

Interviews conducted with the offenders reflected that they are aware of the facility's zero tolerance policy and understand the protections afforded to them under the PREA standards. They are given information to review at the time of commitment, which includes multiple ways to report sexual abuse and harassment, as well as how to protect themselves. Offenders consistently indicated that they felt safe in the facility and felt that the staff would respond and take any reported allegation seriously. This was a positive indicator to the Auditor of a sexually safe environment and a staff culture that takes PREA compliance seriously.

Staff interviews indicated that the staff have been trained and understand the meaning of the agency's zero tolerance policy. The staff was also able to articulate the steps to take if they were the first responder to a reported allegation of sexual assault. It was clear, based on interviews with staff, the staff have a knowledge and understanding of PREA, as well as their roles and obligations. Since sexual abuse incidents at the facility are rare, it is important for the staff to stay current on the information. Staff indicated that they felt the facility was a safe place and that the administration took PREA seriously and made sure it was a priority.

After reviewing all relevant information submitted by the facility, as well as additional documentation reviewed on site, and conducting the on-site review and offender and staff interviews, the Auditor found that the administration has made PREA compliance a priority for the facility. As a result of their efforts and commitment, the facility has achieved full compliance with the PREA Standards for Adult Prisons and Jails.

The final status of the standards that were exceeded, met, not met, or not applicable is shown below. The facility must achieve compliance in all areas and subsections of the standard to reach full compliance with that standard. An explanation of the findings related to each standard are provided and detailed in the report below. The Pre-Audit Questionnaire, documents submitted during the pre-audit

period, additional requested documentation, interviews, observations and additional documents reviewed on site all verified that practices and procedures are consistent with the agency policy and are in compliance with the PREA standards. As the facility had no corrective actions plans necessary, there was no interim report issued.

policy are consistent and in compliance with PREA definitions. The policy clearly details the facility's overall approach to preventing, detecting and responding to sexual abuse and harassment. The culture of "zero tolerance" is apparent throughout the facility as evidenced by informational posters, information on the website, lobby and public areas, and interactions and interviews with both offenders and staff. The zero-tolerance mandate is clearly taken seriously by the staff at the facility and this is reflected in the offender interviews.

The BRRJA has designated Sergeant Debbie Dews as the department wide PREA Coordinator. She reports that she has sufficient time and by virtue of her position, the authority to develop, implement and oversee the facility's efforts to comply with PREA standards. It is evident to the Auditor that she and the PREA Compliance Manager work closely to ensure the facility's compliance efforts and the sexual safety of the offenders. There is an open line of communication between all levels of staff at the facility.

The BRRJA/HCADC has a PREA Compliance Manager, Lieutenant Debra Barksdale. She reviews all the risk screenings and assures any follow-up medical and mental health visits for inmates that reported prior victimization or who are identified as potential predators. She works closely with Sergeant Dews, the PREA Coordinator to ensure all facets of the PREA program are being accomplished.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

- 1. BRRJA/HCADC Completed PAQ
- 2. BRRJA/HCADC Policy, 12.15
- 3. Staffing Plan Review dated and approved 1-26-17
- 4. BRRJA/HCADC Organizational Chart

- 7. Interviews with the following:
 - a. PREA Coordinator/Assistant Facility Administrator
 - **b.** Facility Administrator

- c. Intermediate or Higher-Level Facility Staff
- d. Random Staff Interviews

The BRRJA/HCADC has a written staffing plan that addresses all required elements of the standard. In interviews and discussions with the Assistant Site Administrator, they indicated that in developing the staffing plan, they had discussed and considered the PREA standards, particularly with regard to staffing ratios, minimum staffing requirements, and shift assignments. The facility has a CCTV system comprised of multiple monitors located in the control room. The CCTV is monitored by security staff in a central control station at all times.

The staffing plan requires any deviations be documented and justified. According to my review of the relevant documentation and interviews with the PREA Compliance Manager, there have been instances where there have been deviations from the staffing plan which have occurred. The documents that I reviewed proved that deviations were documented and justified, in accordance with the standard.

The staffing plan was dated and approved on 1-26-17 and they have completed an annual review as mandated by the standard, which is dated 2-26-18.

In the PAQ, the agency reports that they conduct unannounced rounds on all shifts and a policy exists that prohibits staff from altering other staff of the rounds. In policy 12.15, it is required that supervisors will conduct and document unannounced rounds each shift to identify and deter sexual abuse and harassment. In addition, the Site Administrator and/or Assistant Site Administrator conduct and document weekly unannounced rounds. The Auditor reviewed log books documenting rounds made. It is clear through observation that supervisors and administrators are conducting unannounced rounds. Interviews with shift supervisors, site administrator, as well as line staff indicate that the rounds are unannounced and random.

 - **b.** Facility Administrator
 - c. Intermediate or Higher Level Facility Staff (Shift Supervisors)
 - d. Random Staff Interviews (Shift Officers)

 - f. Random Offender Interviews

Findings:

The BRRJA/HCADC does not conduct cross-gender strip searches or cross-gender visual body cavity searches. This is stated in policy 12.09 and interviews with staff, including medical personnel indicate operational practice is consistent with this policy. The facility reports in the PAQ and verified through staff interviews that no cross-gender strip searches or visual body cavity exams have occurred.

There is not a prohibition against cross gender pat down searches; however, this requires documentation and does not occur absent exigent circumstances, and there have been no instances of cross gender searches during the audit period. Informal discussions with staff and supervisors indicated that they will call for assistance in searching female prisoners from the local law enforcement deputies of the same gender.

The BRRJA/HCADC policy 12.09 prohibits cross-gender strip searches and cross-gender visual body cavity searches except when performed by medical personnel. The BRRJA/HCADC policy 12.09 states that all cross-gender pat-down searches will be documented. The facility reports on the PAQ and verified through interviews that no cross-gender strip searches, pat searches or visual body cavity searches have occurred.

Policy 12.15 states that inmates are able to shower, change clothes and perform bodily functions without nonmedical staff of the opposite gender viewing their breasts, buttocks or genitalia, except in exigent circumstances or incidental to routine cell checks. Policy 12.15 states that staff of the opposite gender shall announce their presence when entering an inmate housing unit. Informal and formal random inmate interviews indicated that they are not supervised by staff of the opposite gender. Offenders indicated that announcements are routinely made when opposite gender staff enter the housing units. Staff interviews also indicate the offenders' privacy from being viewed by opposite gender staff is protected. Staff do not enter the units if there are offenders in the shower or toilet areas. Cameras are placed appropriately so that shower and toilet areas are not in view or they are guarded by modesty screens.

BRRJA/HCADC policy 12.09 prohibits searching or physically examining a transgender or intersex offender for the sole purpose of determining the offender's genital status. During interviews, when asked what they would do if they were unable determine an offender's gender or genital status, staff generally suggested to call medical. Upon further questioning, they were able to articulate that they could determine this information other ways, including asking the offender. Based upon the responses from the security staff while being interviewed, the medical personnel were asked how they would handle the situation if she or one of her staff was called to determine the gender of an offender. They stated that she would first ask the offender. None of the staff suggested that the prisoner would be subject to a strip search for the sole purpose of determining gender. None stated that this had not occurred since they had been working there. Policy 12.09 requires all officers to be trained on how to conduct searches, including those of transgender and intersex offenders. Staff indicated that they are trained to do cross-gender searches at the basic jail school and have received refresher training at least annually. Records of annual refresher training were reviewed by the auditor. The BRRJA/HCADC staff report they have not received or housed any transgender inmates at this facility during the audit period.

Findings:

The BRRJA/HCADC takes appropriate steps to ensure that offenders with disabilities, including those who are deaf, blind or have intellectual limitations have an equal opportunity to participate and benefit from all aspects of the facility's efforts to prevent, detect and respond to sexual abuse and harassment. Policy 28.01 indicates that during booking, offenders determined to have disabilities will have accommodations made to ensure that materials are received in a format or through a method that ensures effective communication. Interviews with the PREA Compliance Manager and PREA Coordinator confirmed that they have a process in place to ensure that all inmates, regardless of disability would have equal access to PREA information. Staff indicated that they did not currently have any offenders with disabilities or special needs that would require accommodations to have access to the PREA information and protections. In fact, there have been no instances where non-English proficient offenders or others with disabilities have required accommodations in accordance with the standard.

BRRJA/HCADC Policy 28.01 stipulates that offenders who are limited English proficient have access all aspects of the facility's efforts to prevent, detect and respond to sexual abuse and harassment, including providing interpreters. This service is provided by a telephone interpreting service. Intake informational brochures were readily available in Spanish, which is the most common second language in the area. An English/Spanish handbook is available. The inmate video is done in English with English/Spanish subtitles, and any other language barrier training is provided by the translation service.

The policy prohibits the use of inmate interpreters except in instances where a significant delay could compromise the offender's safety. Interviews with staff indicate that offenders are not and would not be used as interpreters.

 BRF Pers BRF 	RJA/HC sonnel RJA/HC	ADC Completed PAQ ADC Policy 2.36 Files (Criminal History Background checks) ADC Policy 1.10 with the following:

- a. PREA Coordinator/ Compliance Manager/Assistant Site Administrator
- b. Facility Administrator/Human Resource Manager
- c. Facility Investigator

The BRRJA/HCADC does not hire or promote anyone who has engaged in sexual abuse or harassment as stipulated in the standard. The language in policies 2.36 and 1.10 is consistent with that in the standard. The Auditor reviewed interview questions used by the BRRJA/HCADC and found that they are asking these questions during the interview process to determine if they are hiring anyone who has engaged in prohibited conduct. Interviews with the Facility Administrator as well as the Human Resources Manager confirm that they are asking these questions during the interview process.

Policy 2.36 indicates that the BRRJA/HCADC will consider any instances of sexual harassment in determining whether to hire or promote anyone, or enlist the services of contractors who may have contact with inmates. The Facility Administrator stated that instances of sexual harassment would definitely be a factor when making decisions about hiring and promotion. Every employee and contractor undergo a background check and is not offered employment or access to the facility if there is any disqualifying information discovered.

Consistent with BRRJA/HCADC policy, all employees and contractors must have a criminal background records check prior to employment and every 5 years thereafter. Staff at the BRRJA/HCADC complete criminal background checks for all prospective applicants and contractors, prior to them being offered employment. The Facility Administrator and HR Manager verified this information in interviews discussing this background process. The Facility Administrator and Human Resources Manager stated that if a prospective applicant previously worked at another correctional institutional, they make every effort to contact the facility for information on the employee's work history and any potential issues, including allegations of sexual assault or harassment, including resignation during a pending investigation. They stated that most of the surrounding agencies were very good about sharing information with each other.

The BRRJA/HCADC asks applicants directly about misconduct as described in the standard. Interviews with the PREA Coordinator and the Facility Administrator indicate that the questions are being asked and verified as required by the standard and BRRJA/HCADC policy. In accordance with the standard, the policy requires candidates for promotion to be asked questions regarding sexual misconduct. The policy also stipulates that employees will be asked these questions during periodic performance appraisals. The presence of this was confirmed with the Human Resources Manager. BRRJA/HCADC policies stipulate a continuing affirmative duty to disclose any PREA related misconduct. All current and new staff are trained on the PREA policy, as well as annual refresher training. The auditor also reviewed records of employees indicating that they had been subjected to a criminal history records check and the PAQ reported that there have been 5 new employees during the audit period that have had criminal history checks run in accordance with the standard.

In accordance with the standard, BRRJA/HCADC policy stipulates that material omissions regarding such conduct, or the provision of materially false information shall be grounds for termination. The Facility Administrator verified that the BRRJA/HCADC would and has

terminated employees for engaging in inappropriate behavior with inmates, upon learning of such misconduct.

BRRJA/HCADC policy indicates that the facility shall provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer and a signed release of information. As noted above, the Facility Administrator and Human Resources Manager stated that most surrounding agencies would share information out of professional courtesy. They stated he would share information upon request from another facility regarding a former employee.

Findings:

According to the PAQ, the BRRJA/HCADC has updated the video monitoring system, electronic surveillance system or other monitoring technology. In discussions with the administrative staff, thy indicated that there have been some additions to the CCTV system since their last audit. The recommendations addressed in the last PREA audit regarding adding cameras to the kitchen dry storage area, loading dock, are still awaiting improvement and are in the queue for the next round of CCTV expansion. I recommend considering the installation of CCTV in those areas in addition. Interviews with the Site Administrator and Facility Administrator indicated that they are implementing additional improvements in the CCTV system this fiscal year.

The BRRJA/HCADC is an older facility that has limitations in their ability to upgrade their CCTV coverage. However, there is no question that they consider these elements of the standards when reviewing and budgeting for facility improvements and upgrades.

The BRRJA/HCADC is responsible for only administrative investigations. To the extent they are responsible for conducting investigations, the facility follows a uniform protocol for investigating allegations of sexual abuse that maximizes the possibility of collecting usable evidence and trains facility staff first responders in this protocol. The evidence protocol is specified in policy and described and confirmed by the Investigator. Interviews with staff indicate that they are trained and familiar with the evidence protocol and what to do if they are the first responder to a sexual assault.

A MOU with the local sheriff's office indicates that they would be fully responsible for incidents that occur that are criminal in nature, including those related to violations of the PREA. Halifax County Sheriff's Department conducts all investigations once they are deemed criminal.

The BRRJA/HCADC does not hold youthful offenders.

BRRJA/HCADC policy stipulates that all victims of sexual abuse shall be offered a forensic medical exam, without financial cost and that crimes would be investigated by the local Sheriff's Office. These exams would be performed off-site at the local emergency department by SANE/SAFE employees at the Lynchburg Hospital. The availability of these services was confirmed by the Auditor with the Medical Personnel. She indicated they always had a SANE/SAFE employee on call and available and there would be no charge to the victim for this exam. The BRRJA/HCADC reported on the PAQ there had been no forensic exams conducted. This was confirmed by facility administrators and the medical personnel.

The agency has a MOU with the local YWCA regarding services for victims of sexual abuse in compliance with the standards.

The BRRJA/HCADC policy is written in accordance with the standard. The PREA Coordinator, Compliance Manager and Investigators work very closely together to ensure that all allegations of sexual abuse and harassment are investigated promptly and thoroughly. If an offender alleges a sexual assault or sexual harassment has taken place, the staff member will notify the shift supervisor, who will contact a patrol officer, if it is determined that a crime has likely occurred. If the initial investigation does not indicate that a crime has occurred, the shift commander will initiate an administrative investigation. The Facility Investigator coordinates with the PREA coordinator to determine the course of action. There were no instances of sexual abuse or harassment during this audit period.

The policy is posted on the BRRJA/HCADC website. The BRRJA/HCADC investigators conduct all administrative investigations at the facility and the facility investigator/site administrator (who is also qualified to conduct administrative sexual abuse investigations) conducts all administrative investigations and documents findings.

BRRJA/HCADC policy ensures that allegations of sexual abuse or sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations, unless the allegation does not involve potentially criminal behavior through an MOU with the Halifax County Sheriff's Department. All such referrals are documented.

The BRRJA/HCADC policy is written in accordance with the standard. The training curriculum was reviewed by the Auditor and contains all required elements of the standard. This training is provided to current employees in person by the training staff during annual firearms qualifications. New employees are provided the training in person prior to assuming duties or supervising prisoners. In addition, they are provided training during the correctional academy. The training is specific to both male and female offenders.

Annually, during firearms training, employees are giving refresher training on PREA. All employees also receive additional refresher training on PREA that is also presented during roll calls throughout the year.

The Auditor reviewed training rosters where employees signed and acknowledged that they had received and understood the training.

Interviews with staff revealed that they are clear on the zero-tolerance policy and their duties as first responders.

The BRRJA/HCADC policy is written in accordance with the standard. The training curriculum was reviewed by the Auditor and contains all required elements of the standard. This training is provided to contract employees and volunteers in person, prior to assuming their duties. All volunteers and contract staff are trained, including work supervisors in the community.

Volunteers and contractors receive the same training as line staff. All volunteers and contractors who have contact with inmates are notified of BRRJA/HCADC zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. The Auditor reviewed training rosters to verify training and signature sheets where contract employees and volunteers signed and acknowledged that they had received and understood the training.

Interviews with civilian staff and one volunteer revealed that they are clear on the zero-tolerance policy and their duty to report, as well as how and to whom to report incidents. They also report understanding their responsibilities to try to preserve evidence by telling the offender not to take actions to remove or alter evidence and that they would immediately report anything unusual to the appropriate supervisor or Captain.

 - a. PREA Coordinator/Assistant Site Administrator
 - **b.** Facility Administrator
 - c. Medical Personnel
 - d. Random Offenders
 - e. Intake Staff

Findings:

The BRRJA/HCADC policy is written in accordance with the standard. In accordance with policy, offenders receive a screening and training regarding the facility's zero tolerance policy. This information, along with the inmate handbook and informal posters provides offenders with information regarding sexual abuse and assault, the agency's zero tolerance policy and how to report incidents of sexual abuse or harassment.

The comprehensive education is accomplished through the use of the PREA orientation video. All of the intake risk assessment screenings are picked up and reviewed daily by the PREA Compliance Manager. She ensures that the comprehensive education is completed within 10 days of admission, but generally occurs within one day or admission. The video is shown in the intake area. Staff are available should the offenders have questions regarding the video. The Auditor reviewed the video to verify that it was in working order. The Auditor reviewed random inmate records files to ensure the training was being completed for all inmates. Interviews with staff and prisoners both formally and informally verified that prisoners are receiving the initial and comprehensive training.

All current offenders have received PREA training. Offender interviews indicate that the majority remember receiving information upon arrival and viewing the orientation video. They have an awareness of PREA information and how to report.

As required by the standard, policy provides for education in formats accessible to all inmates. There are Spanish versions of all materials, as well as the availability of telephone-based translators. For offenders that are visually impaired, a staff member would read the information to the offender. As indicated in the policy, all other special needs would be handled in coordination with the PREA Coordinator on a case by case basis. There have been no instances of the need to accommodate special needs prisoners during this audit period.

Information in multiple formats was available throughout the facility. The Auditors observed PREA informational posters in all offender housing areas, intake, and medical. The inmate handbook is available and provided to all prisoners.

BRRJA/HCADC policy is written in accordance with the standard. BRRJA/HCADC investigators conduct only administrative investigations. Toward the latter part of the audit period the

departmental investigator was promoted. This investigator was confirmed to have all of the specialized training as required by the standard. The newly appointed investigator is scheduled to attend the mandatory training along with other staff who may be required to assist with investigations. The newly appointed investigator conducted no formal investigations during the audit period and interviews with agency administrators and the investigator verified that any investigations would be handled by investigative staff who have completed the required training. There are a number of administrative staff members, including the previous investigator, who are qualified to conduct investigations in accordance with this standard.

- 5. Interviews with the following:
 - a. PREA Coordinator/ Compliance Manager/Assistant Site Administrator
 - **b. Facility Administrator**
 - c. Booking Staff/Staff Responsible for Risk Screening (classification)
 - d. Random Offenders

Findings:

The BRRJA/HCADC policy is written in accordance with the standard. All offenders received at the BRRJA/HCADC are assessed for risk to themselves or others within 72 hours of admission to the facility, but always prior to being placed in population or confined with other inmates. The Intake Officer does an initial screening as part of the intake process. Within 72 hours (generally the same day, except weekends and holidays) the Classification Officer reviews the previous screening and does another screening. Interviews with intake staff and those responsible for completing the risk screening report that even on a busy day, offenders are processed and screened without delay.

The screenings are completed using an objective screening instrument that encompasses all required aspects of the standard. The screenings are reviewed by the PREA Compliance Manager. She reviews the screenings completed the previous day and reassesses the inmate's risk, as well as determines if any further action needs to be taken. Risk levels are also reviewed and reassessed within 30 days based upon any new information received that would affect the inmate's risk of sexual victimization or abusiveness. Action is taken as required in these instances; although, there have been no instances that have required reassessment as a result of new information. A review of random offender files indicates that the assessments are being completed consistently for each inmate that arrives.

Offender interviews indicate that risk assessment screenings are being completed and all criteria are being assessed as required by the standard.

The PREA Coordinator and the Compliance Manager indicated that offenders would not be disciplined for refusing to answer risk assessment questions and that the only consequence would be a potential delay in their processing.

The screening forms are kept confidential, in a locked records or classification office and only accessible by limited individuals. Files are maintained securely.

- 5. Interviews with the following:

- a. PREA Compliance Manager/Assistant Site Administrator
- b. Intake Staff/Staff Responsible for Risk Screening/Classification
- c. Random Offenders
- d. Staff
- e. Supervisory Personnel

Findings:

BRRJA/HCADC policies are written in accordance with the standard. Interviews with Staff, Supervisors who approve the screening forms and random staff indicate that information obtained on the screening form is used to make decisions on housing and programming. These determinations are made on a case by case basis based upon the results of the risk assessment. The facility makes individualized determinations about how to ensure the safety of each inmate.

Interviews with facility staff indicate that placement of any transgender or intersex offenders would be made on a case by case basis. The facility administration and staff report that the BRRJA/HCADC has not housed a transgender or intersex offender during this audit period. In accordance with the standards, BRRJA/HCADC policy stipulates that placement and programming assignments for transgender inmates will be reassessed at least twice a year and a transgender inmate's views with respect to his or her safety will be given serious consideration. BRRJA/HCADC provides space for prisoners to shower separately. The showers are designed in such a way as to allow privacy for all inmates. Interviews with facility administration corroborate these practices would be enforced if a transgender offender were received.

LGBT offenders are not placed in dedicated housing areas. Interviews with staff confirm this practice does not occur. Targeted interviews with offenders also confirm that this practice does not occur.

The BRRJA/HCADC reports that there were no inmates identified at risk of sexual victimization who were held in involuntary restrictive housing during the audit period. BRRJA/HCADC policies are written in accordance with the standard and cover all mandated stipulations. Interviews with staff indicate they would not involuntarily place an offender at risk of sexual victimization in restrictive housing except as a last resort when all other alternatives had been considered. Inmates placed in segregated housing for this purpose would have access to programs, privileges, education, and work opportunities to the extent possible.

There have been no instances that required action with regard to this standard. Furthermore, the BRRJA reported that they have multiple housing options at other sites to accommodate prisoners that are identified as high risk.

Findings:

BRRJA/HCADC policy is written in accordance with the standard. There are multiple internal ways for offenders to privately report PREA related incidents, including verbally to any staff member, a written note submitted to staff, anonymous written reports, and third-party reports. This information is provided to prisoners upon admission, contained in the inmate handbook and on informational posters in all offender housing areas. Prisoner interviews revealed that they would feel comfortable reporting to most staff. They feel that that the staff at BRRJA/HCADC genuinely care and would take any report seriously and act immediately. Prisoners felt that staff would ensure their safety. Staff interviews revealed that they are aware of their responsibilities with regard to reporting and would accept and act on any information received immediately. Information on how to report on behalf of an inmate is clearly listed on the agency website.

Prisoners have the ability to report directly to the jail staff. In addition, they may report to PREA Report Line, and the number is listed in the handbook as well as informational posters near the phones in the inmate housing areas. Prisoners may also anonymously make a report to the Sexual Abuse Response Program at: YWCA of Central Virginia. Several offenders mentioned these as potential reporting methods, indicating the offenders are aware of this information. There have been no inmates held solely for civil immigration purposes; however, during informal supervisory interviews, they were aware of their affirmative requirement to allow the detainees to contact their respective consulates after booking.

Staff may privately report sexual abuse or harassment of inmates either verbally or in writing to their supervisors, or facility administrators directly. Staff interviews revealed that they are aware they can go directly to facility administration or relevant outside parties to report sexual abuse and harassment of inmates.

The BRRJA/HCADC provides victims with confidential outside support services through a MOU with the YWCA. In addition, inmates are provided mailing addresses and telephone numbers, including toll-free hotline numbers for the YWCA. There have been no incidents reported that required confidential support services during this audit period. BRRJA/HCADC enables reasonable communication between inmates and these organizations and agencies, in as confidential a manner as possible. They provided documentation that describes the limits of confidentiality and the interviews with the mental health staff indicates they are aware of their obligations under this standard; however, I would recommend that staff and inmate training place more of an emphasis on the availability of confidential support services and the limits of confidentiality.

Findings:

BRRJA/HCADC policy is written in accordance with the standard. Interviews with staff indicate they are very clear with regard to their duties and responsibilities with regard to reporting PREA related information. They understand the need to keep the information limited to those that need to know to preserve the integrity of the investigation and the privacy of the victim and alleged abuser. Apart from reporting to designated supervisors or officials, staff do not reveal any information related to a sexual abuse report to anyone other than to the extent necessary, as specified in policy, to make treatment, investigation, and other security and management decisions. Interviews with medical and mental health staff indicate they are aware of their mandatory reporting requirements and comply with the mandate to disclose the limits of their confidentiality.

Staff are aware of the facility policy regarding retaliation against those that report sexual abuse. The facility has a policy and process for monitoring for retaliation and this is managed by the PREA Compliance Manger. There have been no incidents requiring monitoring during this audit period.

All allegations of sexual abuse and harassment are reported to the on-duty supervisor, who contacts the appropriate administrator who will assist in making the determination if a law enforcement response is warranted. In addition, the PREA Compliance Manager/Assistant Facility Administrator and Internal Investigator are notified.

The agency's policy is written in accordance with the standard. During this review period, there have been no instances where sexual abuse was reported that needed to be reported to another facility. Interviews with the Administrator, PREA Compliance Manager and facility investigator confirmed their understanding of their affirmative requirement to report allegations in accordance with the standard. Such notification would be provided as soon as possible, but no later than 72 hours after receiving the allegation. All actions are thoroughly documented. Further, interviews with the staff, both formal and informal, revealed that there is a universal understanding and commitment to report any allegations of sexual abuse or harassment, which increases the probability that abuse will be detected, reported and investigated.

 - **b. PREA Coordinator**

Findings:

The agency's policy is written in accordance with the standard. There have been no reported incidents of sexual abuse/harassment that would require the staff to invoke any protections from retaliation. In addition, staff interviews confirmed their knowledge of the requirements for protection from retaliation for both prisoner and staff members. The facility has multiple protection measures, such as housing changes or transfers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff that fear retaliation for reporting sexual abuse or sexual harassment.

All staff members interviewed affirmed that they had a requirement to report any incident of retaliation and also reported that they know that they could report such incidents anonymously. The agency has a policy that would assure and verify compliance with the necessary elements of the standard.

According to policy, the PREA Compliance Manager is required to monitor the treatment of inmates or staff that report abuse, looking for any changes that suggest retaliation. The monitoring period is a minimum of 90 days and interviews with the PREA Compliance Manager confirmed that he knew of his responsibility to remedy any instances of retaliation promptly. If anyone who cooperates with an investigation expresses a fear of retaliation, BRRJA/HCADC would take appropriate measures to protect that individual against retaliation.

Findings:

The agency's policy is written in accordance with the standard. The agency has not had any instances of alleged sexual abuse during this audit period. The BRRJA/HCADC conducts investigations promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. Any investigations would be conducted by an investigator with specialized training in conducting investigations of sexual abuse in a correctional setting. There is a specific policy related to administrative and criminal investigations. All criminal prosecution cases are referred to Halifax County Sheriff's Department. There is a MOU that outlines the Halifax County Sheriff's Office's responsibility to conduct criminal investigations related to PREA. The policy specifies that allegations of crimes will be referred for prosecution as well as prescribing the recordkeeping requirements of the standard. The agency never requires an inmate who alleges sexual abuse to submit to a polygraph examination as a condition for proceeding with the investigation of such an allegation.

The PREA Compliance Manager, Agency Administrator, and Investigator confirmed their knowledge of the investigative regulations according to the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Reviewed:

- 1. BRRJA/HCADC Completed PAQ
- 2. BRRJA/HCADC Policy 28.01
- 3. Interviews with the following:
 - a. PREA Compliance Manager/Assistant Site Administrator
 - b. Mental Health Staff
 - c. Random Inmates

Findings:

The agency's policy directs that inmates are not permitted to engage in non-coercive sexual contact and may be disciplined for such behavior. During this review period, there have been no incidents of non-coercive sexual contact for which inmates have been disciplined. Interviews with staff and inmates confirmed their knowledge of the policy regarding inmates engaging in non-coerced sexual activity. Furthermore, the staff and inmates were aware that the agency has an internal disciplinary process for inmates who engage in sexually abusive behavior against other prisoners and knew that they could be disciplined for sexual abuse. The disciplinary process considers whether an inmate's mental disabilities or mental illness contributed to his or her behavior when determining what type of sanction, if any, should be imposed. There have been no substantiated incidents of sexual abuse during this review period.

The policy is written in accordance with the standard and interviews with the mental health staff confirmed that they would be willing to offer therapy or counseling or limited interventions related to the underlying reasons for the abuse. However, the mental health staff were clear that such interventions would be considered on a case by case basis because of the complexity of such treatments and potential harm that could be caused by discontinuous treatment for short term offenders confined to jail.

Findings:

The agency's policy is consistent with the requirements of the standards. A random inspection of inmate records verified that the screenings were being conducted in accordance with the standards. In addition, there were no documented instances where prisoners who were identified as needing follow up care. In the case of the need of a mental health evaluation in accordance with the standards, the PREA Compliance Manager follows up in order to ensure compliance with this standard. Mental Health Staff interviews confirmed their knowledge of the policy as well as the requirement to gain informed consent from adults who report a history of abuse occurring outside of the confinement setting. The interviewed staff also acknowledged their obligation to maintain confidentiality of prior instances of institutional victimization or abusive behavior, unless it is used for security or management decisions. There have been no instances of institutional victimization or abusive behavior during this audit period.

Findings:

This is the second PREA audit for the BRRJ/HCADC. The Blue Ridge Regional Jail Authority operates five facilities. The audit of the Halifax County Adult Detention Facility is within the appropriate time frame for the re-accreditation.

The Auditor was given full access to the facility. The facility administration was open to feedback and any recommendations were implemented immediately. The facility provided the Auditor with a detailed tour of the facility. All staff cooperated with the Auditor and allowed the Auditor to conduct interviews with staff and inmates in a private area. Staff provided the Auditor with all requested documents, reports, files, and other information requested by the Auditor.

Prior to the on-site review, the Auditor sent a letter to be posted in all inmate living areas which included the Auditor's address. The Auditor observed notices posted in each inmate living unit that the Auditor emailed to the PREA Coordinator prior to the Audit.
